STATINTL

MEMORANDUM FOR: Coordinator for Academic Relations

FROM : [REDACTED]
National Intelligence Officer for China

SUBJECT : Talk at Middlebury by Lilley

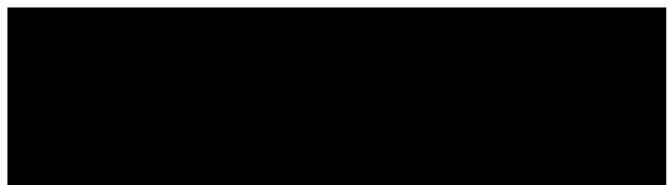

STATINTL

1. While I was at Middlebury this summer, the Dean of the Chinese School, Dr. CHEN Ta-tuan, pressed me to give a talk to the students on China. I talked this over briefly with [REDACTED] when I was down here on a trip and then decided to go ahead and give the talk drawing on my own experience and memory of various events. On 14 August I gave the talk to about fifty of the students in the Chinese School, and I have a record of what I said filed away in my briefing file. I am attaching a description that was passed out to the various students in the Chinese School at Middlebury.

2. Dr. CHEN and others informed me that the session "went well" and there were no adverse repercussions that I could see.

3. In retrospect, I did not have any cover or professional problems during my nine weeks' stay at Middlebury. I did not encounter discernible hostility. In fact, the majority of the students were rather friendly and respectful. The school would welcome participation of other officers in the intelligence business and would be accommodating in meeting our needs.
